

# Tech leads recent annual earnings

Income years 2022–2024, in 2024 dollars. Boxes: weighted P25–P75; line: median; whiskers: P10–P90.

Annual wage and salary earnings (2024 dollars)

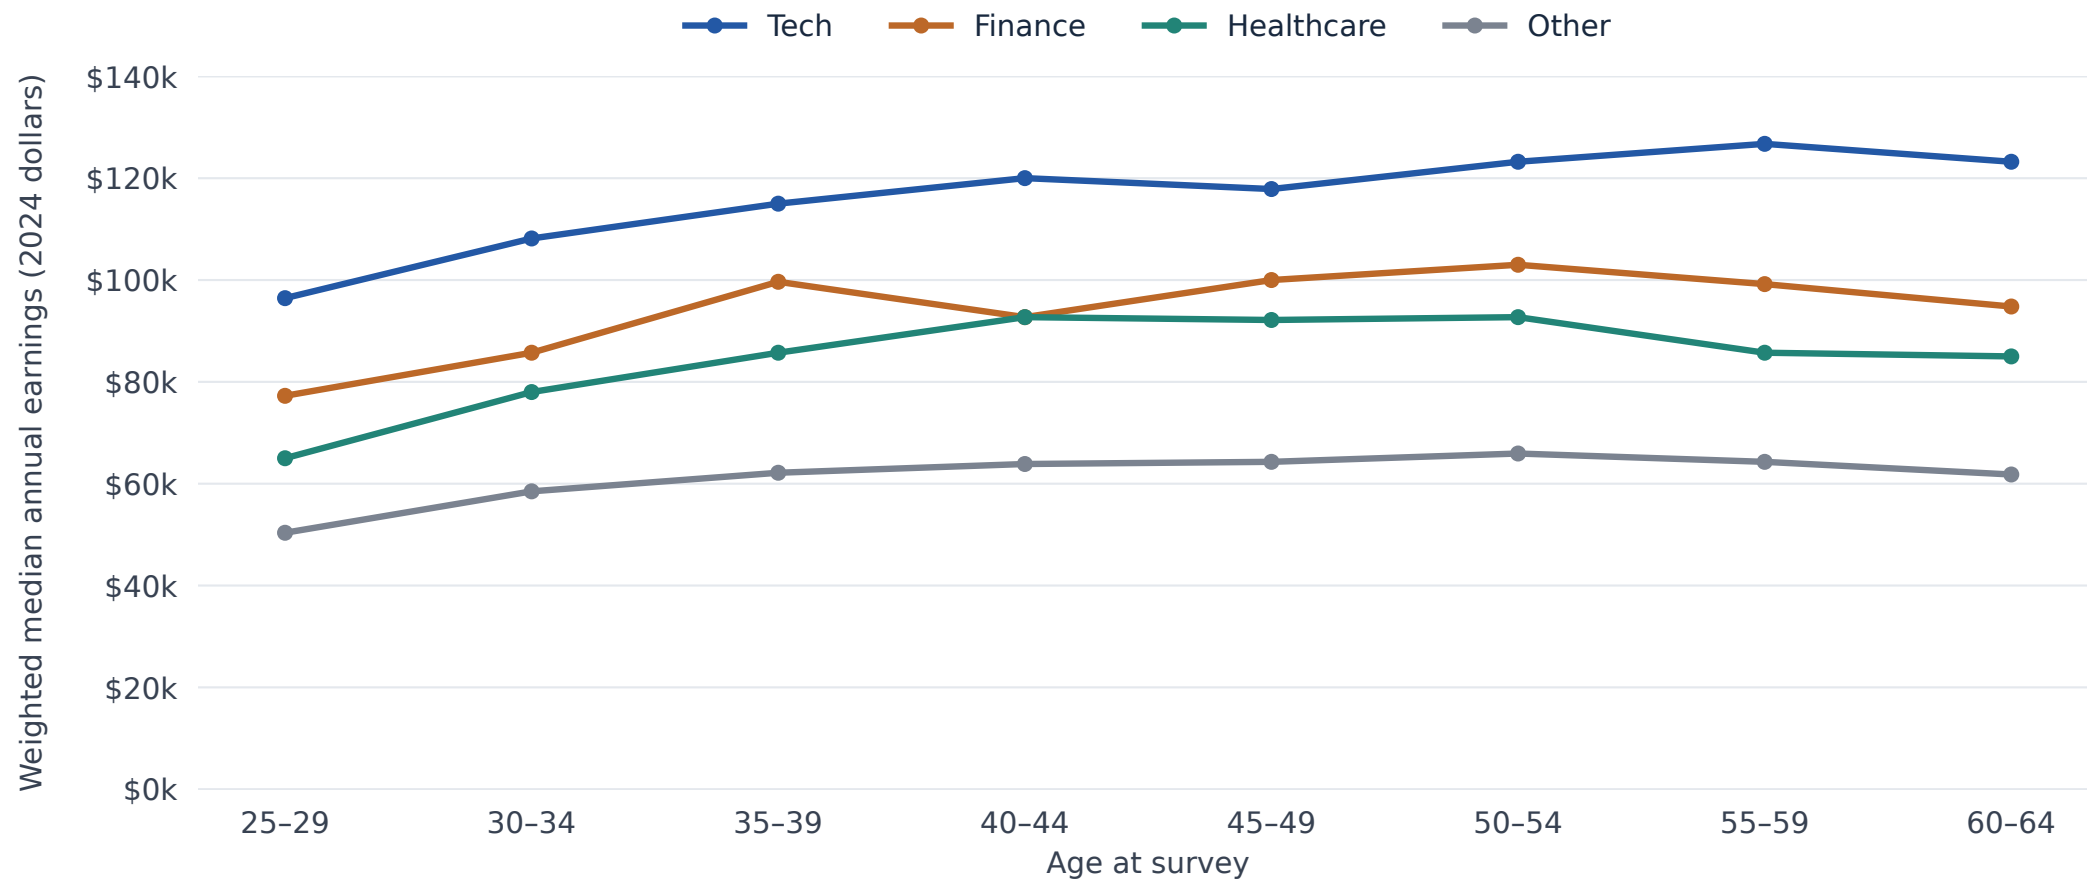

Source: IPUMS CPS ASEC, extract 1. Ages 25–64, full-time/full-year wage and salary workers.

Positive annual wages. Person weights: ASECWT. Occupation refers to the longest-held job in the previous year.

# The earnings gap is already present at ages 25-29

Income years 2022-2024 pooled. Age groups compare different people, not individual career paths.

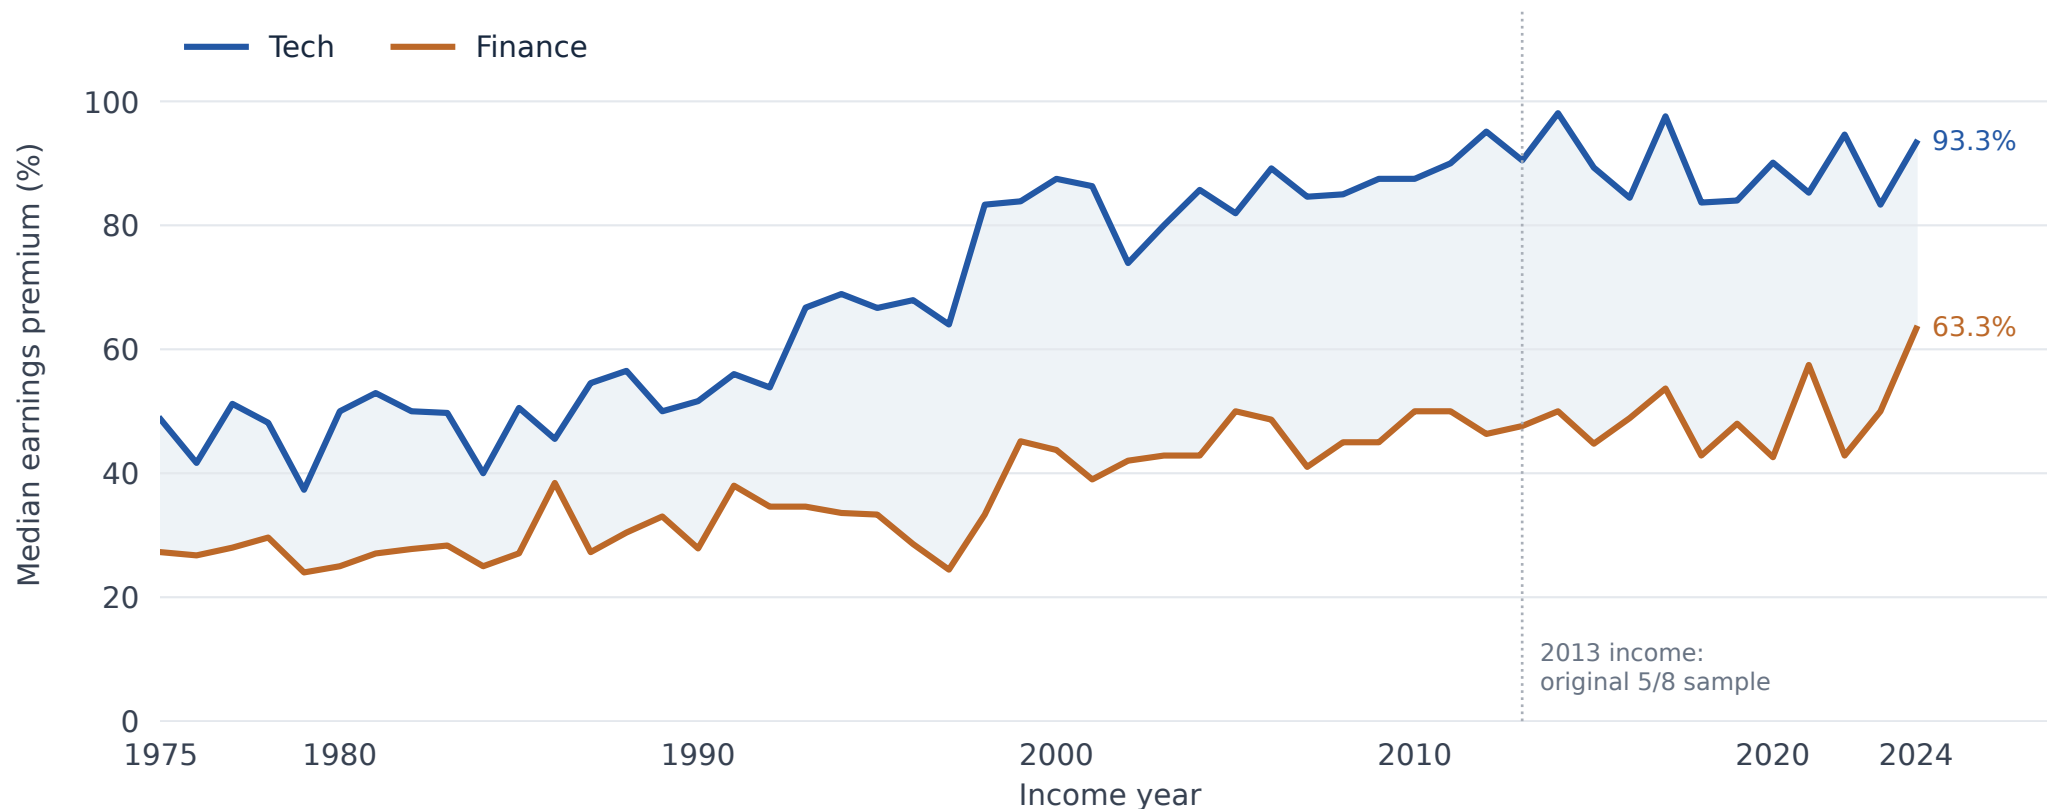

Source: IPUMS CPS ASEC, extract 1. Ages 25-64, full-time/full-year wage and salary workers.

Positive annual wages. Person weights: ASECWT. Occupation refers to the longest-held job in the previous year.

# Tech and Finance premiums are higher than in the 1970s

Unadjusted group comparisons. Premium = group median / Other median – 1.

Harmonized occupations retain classification breaks. Income disclosure rules and population weights also change over time.
